

**CaringOnDemand™**

## The care you need, right when you need it.

At Atria on Roslyn Harbor, we're committed to helping older adults live empowered, independent lives.

To strengthen that commitment, CaringOnDemand is available to help our residents age in place and continue their active lifestyles – with flexible, discreet care services available from certified home health aides if needed.

### What is CaringOnDemand?

An alternative to traditional home care providers, CaringOnDemand connects you with professional, licensed and regulated caregivers at the tap of a button. Using an app on your smartphone, you can browse a list of providers, choose the services you need and when you need them, and receive updates on when your caregiver will arrive.

Request as many or as few services as needed, as often as they are needed, for **99 cents per minute**.

### CaringOnDemand services include:

- Medication reminders
- Bathing assistance
- Personal grooming assistance
- Help getting dressed
- Transfer and mobility assistance
- Toileting assistance
- Companion care
- Accompaniment to doctors' appointments
